ABOUT HONKY-TONK HIGHWAY

Honky-Tonk Highway are a UK country-rock band blending modern country, Southern rock, classic soul, Americana and rock 'n' roll into a live show built around musicianship, songs and genuine on-stage chemistry.

Based on the Isle of Wight and performing across the UK, the band combine American-roots influences with a distinctly British identity. Their sound moves from close-harmony country and classic storytelling to big electric-guitar moments and full-throttle rock, while keeping the performance natural, responsive and unmistakably live.

Alongside a broad live repertoire, Honky-Tonk Highway write and release original material. Their five-track EP *Love And Fear* establishes the band's own voice: country at the core, but never afraid to lean harder into soul and rock.

THE SOUND

Modern British country rock with Southern-rock guitar work, classic-country storytelling, close vocal harmonies, soul influence and the punch of a real rock 'n' roll band. The arrangements are dynamic rather than track-led: the band can sit back into a song, stretch out instrumentally or lift the room when the show demands it.

LIVE FORMATS

DUO	A stripped-back Honky-Tonk Highway set built around vocals, guitars, harmonies and the songs themselves. Ideal for smaller venues and more intimate stages.
TRIO	A bigger live footprint while retaining flexibility - suited to pubs, events and stages where a full-band setup is not required.
FULL BAND	The complete Honky-Tonk Highway show: high-energy country, soul and rock 'n' roll, with the full guitar-driven sound and live-band dynamics.

ORIGINAL MUSIC

LOVE AND FEAR

Honky-Tonk Highway's five-track original EP brings the band's country-rock identity into focus: strong songs, melodic guitar work and a sound that can move from reflective country balladry to a harder rock edge without losing its roots.
